City of Ingleside Water System (PWS ID 2050002) Notice of MCL Coliform Violation (TCR 22)

The City of Ingleside Water System (PWS ID 2050002) collected one water sample during the month of May 2010 that contained coliform bacteria. This water system is required to submit a minimum ten (10) routine water samples each month for bacteriological analysis. One routine sample was coliform-found and no repeat samples were coliform-found for the month and year indicated above.

The Texas Commission on Environmental Quality (TCEQ) sets drinking water standards in Texas and has determined that the presence of total coliform is a possible health concern. Coliforms are bacteria that are naturally present in the environment and are used as an indicator that other potential-harmful, bacteria may be present. Coliforms were found in more samples than allowed and this was a warning of a potential problem.

For water systems analyzing at least 40 samples per month, no more than five (5) percent of the monthly samples may be positive for total coliform. For systems analyzing fewer than 40 samples per month, no more than one (1) sample per month may be positive for total coliform.

If you have questions regarding this matter, you may contact Donald Paty, Director of Public Works for the City of Ingleside at (361) 776-7409.

Aransas County has been Awarded Federal Funds Under The Emergency Food and Shelter National Board Program

Aransas County has been chosen to receive \$9,141.00 to supplement emergency food and shelter programs in the county.

The selection was made by a National Board that is chaired by the U. S. Department of Homeland Security's Federal Emergency Management Agency and consists of representatives from The Salvation Army; American Red Cross; United Jewish Communities; Catholic Charities, USA; National Council of the Churches of Christ in the U.S.A.; and, United Way of America. The Local Board was charged to distribute funds appropriated by Congress to help expand the capacity of food and shelter programs in high-need areas around the country.

A Local Board made up of representation from local related charities and organizations will determine how the funds awarded to Aransas County are to be distributed among the emergency food and shelter programs run by local service organizations in the area. The Local Board is responsible for recommending agencies to receive these funds and any additional funds available under this phase of the program.

Under the terms of the grant from the National Board, local organizations chosen to receive funds must: 1) be private voluntary non-profits or units of government, 2) be eligible to receive federal funds, 3) have an accounting system, 4) practice nondiscrimination, 5) have demonstrated the capability to deliver emergency food and/or shelter programs, and 6) if they are a private voluntary organization, they must have a voluntary board. Qualifying organizations are urged to apply.

Aransas County has distributed Emergency Food and Shelter funds previously with The Aransas County Council on Aging and St. Vincent de Paul participating. These agencies were responsible for providing 2696 meals and 107 nights of lodging through this program in 2010 spending \$10,785.00.

Public or private voluntary organizations interested in applying for Emergency Food and Shelter Program funds must contact Debbie Thompson at 729-5352 for an application. The deadline for applications is July 27, 2011.
